# Tan Sofas

Design by **Tanju Özelgin**

---

## Tan Sofas

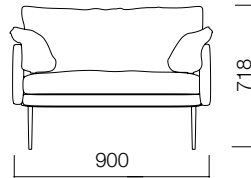

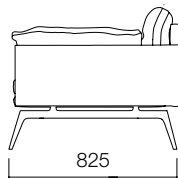

Designed with inspiration from mythology and nature, Tan introduces home comfort to all living spaces with its modern and alluring appearance. Single, double, and triple sofa choices, along with rich colour and material options, make it very easy to configure spaces of all sizes and designs, facilitating composition. Tan underlines comfort, quality, and casualness, while slim and elegant legs create an impressive atmosphere.

## Design by Tanju Özelgin

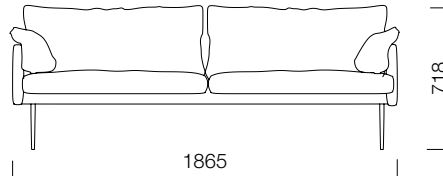

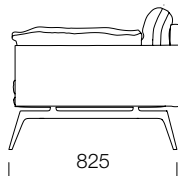

After graduating from Industrial Product Design Department of Faculty of Beautiful Arts, Marmara University in 1984, Tanju Özelgin established his own company Scala Design, where he created fair stand, yacht, housing and office projects. He worked with IN Furniture as a founding partner between 1993-1995. One year later, he established Parlak Kırmızı (Bright Red) with Ertan Binme, and the duo continued to design industrial products, digital videos and graphics, interior architecture projects and applications. Since 2005, he has been working under TO Design Studio, mainly focusing on interior architecture and industrial product design. Özelgin also continues to provide support through his academic membership and project consultant position since 1998.
